The eldest child, a boy of four years, chose, and he had a will of his own, to attend on Finch: Finch sudmitting to the companionship, failing in some coaxing attempts to get rid of him. "Go to Charlotte, Leo dear," said Finch.

When Finch and the clerk had finished the inventory, the former proceeded to the small room on the ground floor, which had been appropriated as the nursery. In the list it was set down as "butler's pantry." Churlotte, the under-nurse, sut there with the youngest child asleep in her lap.
"Where's Master Leo?" usked Fineb, abbreviating, as she usually did, his name "Leopold." "I sent him here, and ordered you to see after him."
"He didn't come." was Churlotte's answer "and the little one was instituted.

"Am I to lay him on the floor?" retorted Charlotte. "I don't know which is to be the children's bed."

Finch flung out of the room in search of Leo: her labors that day, and the discomfort around, made her cross. "I will send up the medicine I spoke of, and call again in the morning," said Mr. Janson, rising. "Make my compliments to Mr. Yorke.

Mr. Janson departed, and Mrs. Yorke looked after him. As he turned to close the iron gate, he saw her standing at the henceforth, they subsided into their proper and respective positions, -Mrs. Yorke as nnother's wife, and Mr. Janson but as a friend of her and her husband's; as honorable, right-minded persons, in similar

cases, ought, and would, and do subside. Mr. Yorke, after exploring as far as he thought necessary that day, turned back to his new home. His thoughts ran not on the features of the village, or on the lovely seenery around, or on the fishing or the shooting; they dwelt exclusively on the few words of Mr. Maskell which had reference to the surgeon with a deep and nourished hate; and he would infinitely have preferred to find he had visited a locality where poison grew rank in the fields like weeds, than one containing Edward Janson.

He was drawing pretty near to his own gate when he saw a gentleman emerge this gentleman with every confidence, from it. A shudder, strange and cold, passed through Mr. Yorke's veins. it sent as a warning-the precursor of what was to come? Surely that was the man Yorke's everybody was busy at Alnwick of his thoughts? walked straight across the road, got over a stile, and was lost behind the hedge.— "He may well try to avoid my observa-tion," thought Mr. Yorke, in his prejudice. Had he been told the real facts—that Mr. Janson did not see him, and being in a hurry, was taking the short way through the fields to his home-he would have refused his belief.

Matters were not mended when Mr. Yorke turned in at his gate. There stood his wife at the window, her eyes unmistakably fixed on the path taken by Mr. Janson. She looked flushed and excited, which indeed was the effect of her late fright about the child. But Mr. Yorke

set it down to a different cause.
"I am glad you have come home," she am glad you have come nome, she exclusined, when he entered. "An unfortunate thing has happened."
"I know," burst forth Mr. Yorke. "No need to tell me."

"I sent for him. At least, I sent"\_\_\_\_ "And how dared you aend for him, or admit him to my house? How could you seize the moment my back was turned, to fetch him to your side? Was the meeting, may I ask, a repetition of the parting?" "What can you be talking of?" uttered Mrs. Yorke, petrified at the outburst.—

What do you mean?'
"I mean Janson," hissed Mr. Yorke-'Janson, your former favored lover. Have been ao distasteful a husband to you, that you must indecently fetch hin here in the that he lived nt Offord? How did you ferret it out? Or bave you known it all along, and concealed the knowledge from

Maria rose majestically. "I do not un-derstand the word 'clandestine'," she haughtily said. "It can never apply to me. When the accident happened to Leo-pold—and I truly thought lic was dead, and so did Finch, and so did the young man who had been going over the inventory—and I begged the young man to run for the nearest surgeon, I no more knew that it was Mr. Janson who would come. than did the senseless child. But it did prove to be Mr. Janson, and he dressed the wound of the child, and he is coming again to him to-morrow morning. He came here professionally, to attend your child, sir, not to see me. 'Clandestinel'

She swept out of the room, her face flashing with indignation, and Mr. Yorke strode up stairs to Leopold's bedroom, and what had happened. It cannot be said that it appeased him in any great degree, for he was blindly prejudiced, and jealousy and suspicion had turned his mind to gangrene. They had been smouldering there for years: perhaps the consciousness had been upon him throughout, that they would sometimes burst into a flame. On the whole, his had been a happy wedded life, and his wife had not made him the less good wife because she had

once loved Edward Janson. On the following morning Mr. Janson came, necording to his promise. Mr. and Mrs. Yorke were nt breakfast. He shook hands with Mrs. Yorke, then turned, with his honest, open countenance, and held out his hand to Mr. Yorke. Mr. Yorke did not choose to see it, but he did move his own to indicate a chair. "Thank you, I am pressed for time," replied Mr. Janson, laying his hand on the back of the chair, but not taking it. "This is my hour for visiting Lady Rich, who is a great invalid. She lives a little past you, up the

road. How is my young patient?" "He seems much better," answered Mrs. Yorke. "He is asking to get up."
"A most disgraceful piece of business

to have suffered it to happen," interposed Mr. Yorke. "I have told the head nurse that should she ever be guilty of such again, she quits Mrs. Yorke's service. It might have killed him." "Yes, it might," assented Mr. Janson.

"Can I go to his room?"

Mrs. Yorke rose. "The one on the right, on the second floor," she said. "I will follow you directly. Finch is there."
Mr. Janson passed from the room and ascended the stairs; Mrs. Yorke stopped to speak to her husband.

"I must hear his opinion of the child, and shall go up. Would you like to accompany me?" she added, not wholly able o conceal the contempt of her tone. Mr. Yorke felt angry with him-

They came down shortly, both Mr. Janson and Mrs. Yorke. "He is so much better that the difficulty will be to keep him quiet," said the surgeon. "He must be still for a day or two.

"You are sure there is no danger?" asked Mr. Yorke, who was now standing at the open window. "Oh, none in the world. I will look in again to-morrow. Good-morning, sir;

good-morning, Mrs. Yorke." Mr. Yorke had thawed very much: perhaps the matter-of-fact, straightforward manner of Mr. Janson reassured bim. "It is a hot day again," said he, as Mr. Jan-

son passed the window. "Very. By the way, Mrs. Yorke," added the surgeon, balting for a moment, "you must not suffer the boy to stir outide. The sun might nffect his head." "Of course not," she answered.

However, Leopold did gct outside, he and his white-bandaged forebeed, and tore about, boy-like, the sun's hot rays streaming full on his uncovered head. In some twenty minutes he was discovered; the bandage off, and he as scarlet as a redhot engine boiler. Suddenly he began to scream out, "My head aches! my head aches!" Finch said it was "temper," at eing fetched in, and crossly assured him f his head did ache, which she didn't believe, for he never bad a headache, it had come as a punishment for stealing out in disobedience.

JEALOUS POUBTS.

A few days, and Leopold Yorke was so far recovered, that an intermittent fever alone remained. Mr. Yorke, in spite of bis jealous prejndices, bad been obliged to submit to Mr. Janson's frequent visits, for there was noother dector within ten miles, and the safety of his son and heir was par-

were no longer under alarm for him. On the appointed evening, they found a small party of seven at the squire's, them-selves included. The eighth seat had been meant for Mr. Janson, but he had been called out unexpectedly, and was unable to come. The gentlemen's conversation turned upon out-door sports, and after dinner, when coffee was over, they went out, that Mr. Yorke might see a pond on the grounds, where the fish was being preserv-

ed, leaving the ladies alone.

Soon after, Mr. Janson came in. But searcely had he had time to explain the cause of his absence at dinner, when a servant appeared, and told him he was

He stole up stairs, stealthily still, and entered the bedroom; his own, jointly with hers. The housemaid was turning down the hed.

Near Topeka, Kan., I talked with farmer who planted a thousand acrea of corn, but did not gather an ear. Last ear he sold corn for 17 cents, and this year he was shipping it from Iowa at \$1 25. He sat on the balcony mourning the utter destruction of his crop. "How did they come-the grasshop-

"Cob and all, sir?" "Yes, cob and all. Why don't you see that 1,000 acres of corn out there now?" he exclaimed-"standing like broken whip-stocks?'

'What else did they eat?' I asked. "Why, they ate every leaf off the peach trees, ate the young peaches, leaving the stones, and there stood my trees leafless, bearing a crop of pench stones. one night I sat on the balcony with the engineer of the Santa Fe road. The roppers had piled up against the west side of the bouse three feet thick. It was a crawling, stinking, nasty pile. The balcony was covered. I threw down a quid of tobacco, and the hoppers covered it and ate it up in a few minutes, and when I put my foot on a pile of them, the rest eniled in and ate the smashed ones on examining to learn the cause, I found the air with a horrid stench. They covered the pools and the springs with their poisonous green exerescence, and made the cattle sick, they made the hens and the turkeys sick, and they fairly made me sick. Wby I've seen them so thick on the railroad that they'd stop a traingrease the trnck till the locomotive wheels would roll over and over.

"And the trees?" "Why, they all leaved out again, and many of them blossomed over again, and tried to bear fruit, and bore it till the frost came. THERE is just this about it. If se rvce in either the Confederate or Fede val army is to be considered in the less highly appreciates this souvenir of forthcoming Democratic State Conven tion, and the nomination conferred upon any man on either of those grounds, we will oppose the nominee to the extent and best of our abijity. If General Sorghum Williams, for instance, is nominated simply because he held a commission as Brigadier General in the Confederate army-and having been no accidents on the road for a long time past, and that there is, therelove, very little work to he done at present. tion nominates a good, houest, sensible, straight-forward man, who has no military record, we will support the opposition eandidate against WILLIAMS. Secession never was Democratie doctrine. It was scouted with horror and spurned with indignation by JACKSON for a man who is presented to us on the sole ground that he distinguished himself in the cause of Seeession. While we have supported many ex-Conrunning on their military records. Whenever that is made the test for liberty to decline to support any one whose course during the war did not suit us and was in opposition to our honest convictions of duty and patriotism. And we apprehend that there are a good many thousand Democrats in Kentucky who will agree with us in opinion and unite with us in action

"Dash it to dash, that was the best news I ever heard. I had only ' lanee off on furlough-but they were bottom dollar.

"I ordered a dress parade, and read the dispatch to them. I then made them a dash of a speech-a regular heart-stirrer, blood-boiler, such as nobody outside of dash but me can make. I told them the dashed Yankees were coming, and that dash would probably be to pay. I spun to them a whole dashed lot of eloquent stuff about LEON-IDAS and his spartan band at the pass of Trigonometry. I told them the eyes of their mothers, wives and sweethearts were upon them—that the fate of the Southern Confederacy would hang upon their gallantry that day.

"For, you see, I knew that old LEE had got himself cornered in a way he could not get out of sbort of a surrender. I knew that dashed fool Hoop had got the t'other army destroyed. and I was conscious that the whole dashed fabrie rested on my shoulders.

"The boys were just as wild for the fight as I was.

"Well, the morning of the 10th of October, 1864, which my own good dent ANDY JOHNSON to the United rade of abuse. A straight, steady look sword has eut from the calendar of ordinary days and pinned upon the scroll of fame as the epoch of the grandest vietory known in the history of arms, arrived, and so did BURBRIDGE and his twenty thousand men.

"They hadn't more than got in sight 'till my dashed braves were spoiling to begin the battle.

"But you see there must be systematie work on such occasions, and I am a dashed of a military genius. I told 'em to wait until the dashed Yankee had made his dispositions, and then we would go in and whip dash out of him by detail.

"BURNRIDGE was not backward in taking up his positions. He posted twenty-two thousand infantry on some rising ground on his right. He then put twenty-five thousand infantry in position on his left, and held back as a reserve force thirty-five thousand more of infantry and twenty-five thousand

men was equal to a thousand Yankees. And then they knew that I was there to head 'em. If old BOB LEE had been in my place, he would have retreated on Riehmond, but dash my soul to dash if there is such a word as 'retreat' in my military dictionary.

"When I saw that the dashed Yankee had made all of his dispositions, I turned to my braves and shouted, "Boys! follow me!" and charged full upon the enemy's right, and before BURBRIDGE could realize what I was up to, had routed it entirely, and captured sixteen thousand prisoners and eighty-four guns, leaving twelve thousand Yankees dead as dash on that portion of the field. I then charged his center and reserve, and soon had them flying in every direction. Here I captured nearly thirty thousand prisories and one hundred and seventyfive cannon. It was then that I discovered that the enemy's left, having witnessed the destruction of their right and center, had fled from the field and were out of reach; leaving all their artillery be hiud them, amounting in all to two hundred and forty-five pieces. -whose Democracy was good enough I had the dead Yankees counted and for us—and we will never cast a vote buried, and they amounted to just forty-five thousand. He also left his wounded behind him, and they amounted to sixty-eight thousand. Next morning I started the hundred and bueband come home druuk, and I federates since the war, they were not twelve thousand prisoners and wounded, and the five hundred and forty guns I had captured, to Richmond, as office, then we shall consider ourself at a present to John Breckenridge, who was Secretary of war.

"That, sir, is the exact truth about the battle of Saltville. It was the greatest battle ever fought on the top of the earth. Julius CASAR was the only General who ever captured at ouc time as many prisoners as I did. I am a candidate for Governor, and if you can find a better General, and one who has won more fame than me, vote for him. But I'm dashed if you won't have a hard time scaring such a man

We furnished CHARLIE a copy of "The True Democra-" cy," a paper we published in 1856, in which we had printed the poem, in Octhe first fall of snow, and eredited it to the Buffalo paper. CHARLIE FAXON died, however, before he could arrange his evidence for publication, and we suppose that in a few years WATSON will be in undisputed possession of the poem he stole from a dead man.

The Quarterly court is in the midst of a two-weeks' session. Judge Gregory has kept up the docket with energy and diepatch, more than filling the expectations of his friends, familiar with all the decisions relative to practice. He keeps well up with adjudged cases, and appears to hetter advantage as a Judge than as a lawyer. Never harsh nor arbitrary, the lawyers are always at ease before him, and this will result in a heavy docket, for the attorneys, control the direction of the legal business. We hope the Judge will continue to command the confidence reposed in him, so that no suit for a sum less than one hundred dollars will he brought in the Circuit Conrt.
